

CREATING CHANGE IN SOCIETY THROUGH SPORT AND EDUCATION.

#MakeAnASSIST

TEAMASSIST.ORG

Possibilities change with every new horizon reached!

TeamASSIST.org is a liaison to non-profit club and school sport programs that serve middle and high school-aged student-athletes.

By providing sports clubs and their student-athletes with exposure and education in sports careers other than becoming a professional athlete our community will lead at-risk youth in urban and rural communities in making emotionally intelligent decisions and being the change we wish to see in the world.

Tax EIN 82-1950896

IMPACTFUL PROGRAMS

Student Education

As a liaison to club and school sports programs, we will deliver educational materials that provide student-athletes with the exposure to make executive decisions at a young age.

Our program is built to enhance student knowledge, leadership skills and has a focus on teamwork and continued learning.

Career Development

With a 1:1,800 ratio (Certified Athletic Trainer to Student-Athletes) careers in sports medicine are abundant.

Our goal is to inform and showcase ATC and other careers that offer tangible and substantial opportunities otherwise unforeseen to the rural and urban at-risk student-athlete.

First Aid / CPR / AED Training

The need for this training is extensive across the United States.

With more emergencies happening on school grounds, sports fields and public environments, having this training is a necessity – especially for at-risk student athletes who live in good communities with many bad actors and influences among them.

Sports Medicine & Safety Program

Club and school sports programs desire sports medicine and safety for their youth athletes. Through our organization partnerships, we can offer:

- Discounted Sports Medicine services
- Safe play environments
- On-site career experiential opportunities

Anti-bullying & Emotional Intelligence

Emotional Intelligence is the human brain's capacity to "perceive emotions...access and generate emotions to assist thought...understand emotions...and reflectively regulate emotions to promote emotional and intellectual growth."

- Mayer & Salovey, 1997

Health & Wellness

What is the difference between diet, nutrition and health? If you don't know, you're not alone.

In the world of at-risk student-athletes, health and wellness education must become a priority and the fact is these educational tools may increase performance on the field & in the classroom.

Partnerships for Technology Inclusion Program

Through donors, sponsors and partners, we work to connect technology equipment for club and school sports programs. Technology may include but not limited to:

Automated External Defibrillators

Helmet Technology

Concussion baseline testing

Heart Screenings

Sponsor and Partnership Sheet

Gold Sponsor: A 3-Year package that supports sports clubs need for their student-athletes health, safety and academic success. \$25,000
